Q1. Who will handle the concrete testing?

A1. The contractor will, but we will allow a \$5,000 allowance for soils and concrete testing. See new Bid Form.

Q2. Demolition of existing post, do you want to keep or are we to dispose of them.

A1. Dispose of them.

Q3. On 4.4.18 should the #8's be upsized to #4's since the extended conductors are #4's? If so, the ¾" conduit is not large enough.

A3. The conductors were sized #8AWG to allow re-use of the existing ¾"C from Panel LL to the junction box in the equipment yard by the irrigation booster pump. Drawing E1.1 is correct as originally issued, bid per drawings.

Q4. Request approval of substitution on the schedule 40 pipe to Allied SS40.

A4. We take no exception to the substitution of SS-40 galvanized steel pipe (in-lieu-of Schedule 40 galvanized steel pipe) for use in the construction of the Orange Grove Middle School batting cages.
