A 21st CENTURY LEARNING COMMUNITY

Catalina Foothills Unified School District #16
2101 E. River Road, Tucson, AZ 85718
(520) 209-7500 (520) 209-7570 FAX www.cfsd16.org

March 20, 2024

Citizens and Governing Board Catalina Foothills Unified School District No. 16 2101 East River Road Tucson, Arizona 85718-6597

State law mandates that school districts are required to undergo an annual single audit and publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States of America by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the Catalina Foothills Unified School District No. 16 (District) for the fiscal year that ended June 30, 2023.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2023, were free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2023, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Report.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the District**

The District is one of several public school districts located in Pima County, Arizona. It provides a high quality public education for its students in pre-kindergarten through grade twelve including academic and extracurricular programs, services such as student transportation and a school lunch program, and the construction and maintenance of District campuses/facilities with a student enrollment of 4,859 students in state funded K-12 programs for the 2022-23 school year. The District has an enrollment of 378 students for half day kindergarten and preschool tuition-based programs. The average age of the District facilities/school buildings is 40 years. The District has nine campuses.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, defining the strategic direction of the organization on behalf of its students' learning, establishing the full array of academic programs, acquiring and maintaining school property, determining the overall organizational or operational structure of its schools, and deciding how financial resources will be allocated within an appropriate accounting system, including budgetary controls. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds to those organizational entities for which its elected governing board is financially accountable. The District's major operations include all academic programs, student transportation, construction and maintenance of District facilities, food services, and extracurricular activities.

The District maintains budgetary controls as an integral part of its overall system of internal controls. The objective of these budgetary controls is to ensure compliance with legal provisions included in the annual expenditure budget adopted by the District's Governing Board. The annual expenditure budget also serves as the foundation for the District's financial planning and control. Activities of the general fund, special revenue funds, and capital projects funds are included in the annual appropriated budget. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is the total adopted expenditure budget. Arizona Revised Statutes permits the adopted expenditure budget to be revised annually. The District additionally exercises management control and oversight of the budget at the fund level. The District may have overexpenditures of budgeted funds as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented.

#### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

<u>Local Economy</u>. The District is located in the northern portion of the greater metropolitan Tucson area, running parallel to the Santa Catalina Mountains. It is primarily a residential community encompassing approximately 25 square miles. The quality of its schools and the natural desertmountain environment make the community one of the most desirable in the area.

The District contains some of the highest median values for both residential and commercial property in the Tucson metropolitan area. The economy of the District is primarily based on tourism with world-class resorts located within its boundaries. The tourism economy is supplemented by a number of small to medium-sized shopping centers, restaurants, etc. A large, regional upscale shopping center exists in the central part of the District.

During 2022-23, the primary and secondary assessed valuation of the property in the District increased as a result of the economic improvement and increased real estate values.

<u>Long-term Financial Planning</u>. The District's average daily membership (ADM) decreased to 4,905 in 2022-23 from the previous year's 4,939 (2021-22). The District projects an ADM of approximately 4,912 in 2023-24. Some of the reasons the District is attractive to residents and non-residents are the following:

#### 1. Academic Performance

In both 2021-22 and 2022-23, the Catalina Foothills School District was labeled as an "A" district based on its Academic Achievement Profile or the A-F Letter Grade Accountability System of Arizona. For two consecutive years, the AASA and AzSCI passing rates for the District were higher than the passing rates for K-12 unified school districts in the state. In 2021-22 and 2022-23, the ACT Aspire and ACT composite scores for the District were higher than the composite scores for high schools in the state.

Ninety percent (90%) of Catalina Foothills' students continue their formal education after high school graduation.

Ninety-four percent (94%) of students graduate from high school within four years.

#### 2. Maintenance & Operations Overrides

District voters have reauthorized the District's maintenance and operations budget override for K-12 since the mid-1980s. The most recent reauthorization was 2022. These override dollars help maintain comprehensive academic K-12 programs for students.

#### 3. Capital Overrides

Local voters approved a capital override for \$2,000,000 in 2015 and reauthorized the override on November 8, 2022, for an additional seven years. The \$2.0 million annual override pays for classroom technology, and curriculum related equipment, digital tools, software licenses, and library resources for all students, educators, and families.

Standard technology tools/equipment (laptops, iPads, Chromebooks, Diversiboards, projectors, document, cameras, and video cameras) and curriculum-related digital tools and subscriptions (e.g., electronic textbooks, GarageBand, iMovie, Microsoft Word, Excel, PowerPoint, Pages, Numbers, Keynote, Google Workspace, Destiny, Discover, Discovery Experience, Nearpod) are purchased, renewed, and/or updated to support student learning and proficiency in the academic and technology standards. Additional technological equipment and resources were purchased to support distance/remote learning during school closures resulting from the COVID-19 pandemic.

#### 4. Grants

In 2022-23, the District was awarded \$4,212,653 in federal and state grants, received \$120,000 from the Catalina Foothills Unified School District Foundation, and received \$4,373,243 in revenues from Classroom Site Funds that primarily supported teacher salaries including performance pay. Grant funds received from the Coronavirus Aid, Relief, and Economic Security (CARES) Act and American Rescue Plan (ESSER I, II, III) were used to support students' academic and social, emotional needs, and implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning during the COVID-19 pandemic. In addition, ESSER III funds were used to address "learning loss" through evidence-based interventions to support academic and social-emotional learning and to replace technology equipment used for instruction.

#### 5. Bonds

On November 8, 2022, District voters approved a \$38,500,000 bond expenditure that will underwrite approximately 120 District-wide renovations and improvements for safety, access, and program needs. The District sold the first bond issuance of \$15,200,507 in April 2023.

#### **Awards and Acknowledgments**

<u>Awards</u>. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2022. This was the thirty-fifth consecutive year the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2022. In order to be awarded these certificates, the District published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2023 certificates.

<u>Acknowledgments</u>. The preparation of the annual comprehensive financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Dr. Mary Kamerzell

Superintendent

Lisa Taetle

Director of Finance

### The Certificate of Excellence in Financial Reporting is presented to

### **Catalina Foothills School District 16**

for its Annual Comprehensive Financial Report for the Fiscal Year Ended June 30, 2022.

The district report meets the criteria established for ASBO International's Certificate of Excellence in Financial Reporting.

#### **Independent Auditor's Report**

Governing Board
Catalina Foothills Unified School District No. 16

#### **Report on Audit of Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Catalina Foothills Unified School District No. 16 (District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Catalina Foothills Unified School District No. 16, as of June 30, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Catalina Foothills Unified School District No. 16 and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Change in Accounting Principle

As described in Note 1, the District implemented the provisions of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, for the year ended June 30, 2023, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining and Individual Fund Financial Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on other work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2024, on our consideration of Catalina Foothills Unified School District No. 16's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Catalina Foothills Unified School District No. 16's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Catalina Foothills Unified School District No. 16's internal control over financial reporting and compliance.

Heinfeld Meach & Co. PC

Heinfeld, Meech & Co., P.C. Tucson, Arizona March 20, 2024 (This page intentionally left blank)

Management's Discussion and Analysis (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Catalina Foothills Unified School District No. 16 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2023. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

#### **Financial Highlights**

- The District's total net position of governmental activities increased \$3.9 million which represents a nine percent increase from the prior fiscal year primarily due to an increase in unrestricted state aid associated with changes in the base level support.
- General revenues accounted for \$52.4 million in revenue, or 75 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$17.3 million or 25 percent of total current fiscal year revenues.
- The District had approximately \$65.8 million in expenses related to governmental activities, an increase of 18 percent from the prior fiscal year primarily due to increases in salaries and related benefits.
- Among major funds, the General Fund had \$43.9 million current fiscal year revenues, which
  primarily consisted of state aid and property taxes, and \$44.9 million in expenditures. The
  General Fund's fund balance increased from \$20.5 million at the prior fiscal year end, to
  \$22.5 million at the end of the current fiscal year.
- The Bond Buildings Fund's fund balance increased from \$12 in the prior year to \$13.7 million at the end of the current fiscal year due to issuance of school improvement bonds.

#### **Overview of Financial Statements**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Overview of Financial Statements**

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, and operation of non-instructional services, and interest on long-term debt.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are reported as governmental funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### **Overview of Financial Statements**

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Federal and State Grants, and Bond Building Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances — budget and actual has been provided for the General Fund and a major Special Revenue Fund as required supplementary information. Schedules for the pension plan have been provided as required supplementary information.

#### **Government-Wide Financial Analysis**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$46.3 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors.

#### **Government-Wide Financial Analysis**

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2023 and June 30, 2022.

|                                  | As of         | As of         |  |
|----------------------------------|---------------|---------------|--|
|                                  | June 30, 2023 | June 30, 2022 |  |
| Current assets                   | \$ 55,873,104 | \$ 36,598,469 |  |
| Capital assets, net              | 77,640,256    | 77,667,224    |  |
| Total assets                     | 133,513,360   | 114,265,693   |  |
|                                  |               |               |  |
| Deferred outflows                | 5,655,978     | 7,752,460     |  |
|                                  |               |               |  |
| Current liabilities              | 4,509,519     | 3,743,240     |  |
| Long-term liabilities            | 84,068,309    | 62,984,354    |  |
| Total liabilities                | 88,577,828    | 66,727,594    |  |
|                                  |               |               |  |
| Deferred inflows                 | 4,324,641     | 12,970,856    |  |
|                                  |               |               |  |
| Net position:                    |               |               |  |
| Net investment in capital assets | 44,765,519    | 45,975,540    |  |
| Restricted                       | 16,450,164    | 18,101,580    |  |
| Unrestricted                     | (14,948,814)  | (21,757,417)  |  |
| Total net position               | \$ 46,266,869 | \$ 42,319,703 |  |

At the end of the current fiscal year, the District reported a negative unrestricted net position of \$14.9 million as a result of an unfunded pension liability. Positive net position was reported in the other two categories. The same situation held true for the prior fiscal year.

The District's financial position is the product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The principal retirement of \$2.9 million of bonds and \$225,572 of bond premium.
- The principal retirement of \$177,854 in financed purchases and leases.
- The issuance of \$13.5 million of school improvement bonds and \$1.8 million of bond premium.
- The issuance of \$2.9 million in financed purchases.
- The increase of \$6.2 million in pension liabilities and the decrease of \$8.5 million in pension deferred inflows of resources.
- The addition of \$3.7 million in capital assets through school improvements and purchases of vehicles, furniture, and equipment.
- The depreciation of \$3.7 million of capital assets.

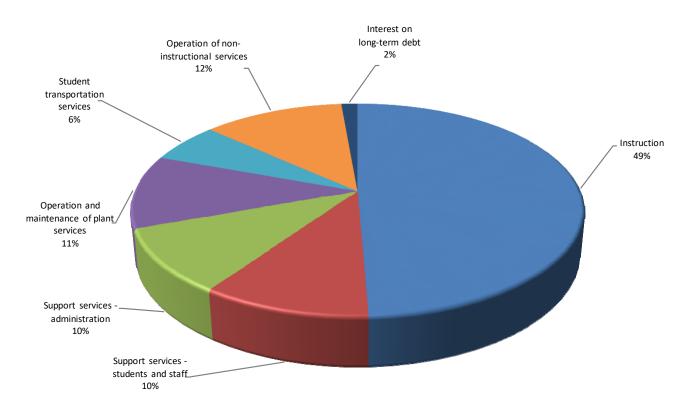

#### **Government-Wide Financial Analysis**

**Changes in net position.** The District's total revenues for the current fiscal year were \$69.7 million. The total cost of all programs and services was \$65.8 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2023 and June 30, 2022.

|   | Fiscal Year<br>Ended | Fiscal Year<br>Ended |  |
|---|----------------------|----------------------|--|
|   | June 30, 2023        | June 30, 2022        |  |
| Revenues:                                   |                      |                      |  |
| Program revenues:                           |                      |                      |  |
| Charges for services                        | \$ 8,559,199         | \$ 6,724,670         |  |
| Operating grants and contributions          | 6,966,078            | 6,434,769            |  |
| Capital grants and contributions            | 1,763,648            | 1,187,202            |  |
| General revenues:                           |                      |                      |  |
| Property taxes                              | 29,115,623           | 29,726,700           |  |
| Investment income                           | 1,069,936            | 93,623               |  |
| Unrestricted county aid                     |                      | 628,019              |  |
| Unrestricted state aid                      | 22,236,016           | 17,728,876           |  |
| Total revenues                              | 69,710,500           | 62,523,859           |  |
| Expenses:                                   |                      |                      |  |

| Operation of non-instructional services     | 7,875,666            | 7,286,104            |  |
| Interest on long-term debt                  | 894,120              | 981,884              |  |
| Total expenses                              | 65,763,334           | 55,847,628           |  |
| Changes in net position                     | 3,947,166            | 6,676,231            |  |
| Net position, beginning                     | 42,319,703           | 35,643,472           |  |
| Net position, ending                        | \$ 46,266,869        | \$ 42,319,703        |  |

#### **Government-Wide Financial Analysis**

**Expenses - Fiscal Year 2023** 

The following are significant current year transactions that have had an impact on the change in net position.

- The increase of \$1.8 million in charges for services is directly related to local food service revenues post COVID-19 funding.
- The increase of \$4.5 million in unrestricted state aid due to increases in the base level support.
- The increase of \$4.1 million in instruction expenses related to increased salaries and related benefits.

#### **Government-Wide Financial Analysis**

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

|                                       | Year Ended June 30, 2023 |                 | Year Ended June 30, 2023 Year F |                 | Year Ended | inded June 30, 2022 |  |

| plant services                        | 7,364,960                | (5,884,957)     | 5,735,422                       | (4,912,133)     |            |                     |  |
| Student transportation services       | 3,985,591                | (3,984,980)     | 3,011,627                       | (3,011,627)     |            |                     |  |
| Operation of non-instructional        |                          |                 |                                 |                 |            |                     |  |
| services                              | 7,875,666                | (847,427)       | 7,286,104                       | 111,197         |            |                     |  |
| Interest on long-term debt            | 894,120                  | (894,120)       | 981,884                         | (981,884)       |            |                     |  |
| Total                                 | \$ 65,763,334            | \$ (48,474,409) | \$ 55,847,628                   | \$ (41,500,987) |            |                     |  |

- The cost of all governmental activities this year was \$65.8 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$17.3 million.
- Net cost of governmental activities of \$48.5 million was financed by general revenues, which are made up of primarily property taxes of \$29.1 million and state aid of \$22.2 million. Investment earnings accounted for \$1.1 million of funding.

#### **Financial Analysis of the District's Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

#### Financial Analysis of the District's Funds

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$46.9 million, an increase of \$18.4 million due primarily to an increase in unrestricted state aid.

The General Fund comprises 48 percent of the total fund balance. Approximately \$18.3 million, or 81 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The fund balance increased \$2.0 million to \$22.5 as of fiscal year end. General Fund revenues increased \$3.8 million as a result of an increase in unrestricted state aid. General Fund expenditures increased \$5.9 million primarily due to increases in employee salaries and related benefits.

The Federal and State Grants Fund's fund balance increased from \$516,172 to \$914,729. Federal and State Grants Fund revenues increased \$3.1 million and expenditures increased \$1.1 million due to additional COVID-19 funding and the timing of grant reimbursements.

The Bond Building Fund's fund balance increased to \$13.7 million at fiscal year-end due to issuance of school improvement bonds. Bond Building Fund revenues increased \$168,643 and expenditures increased \$518,508.

#### **Budgetary Highlights**

Over the course of the year, the District revised the General Fund annual expenditure budget. The difference between the original budget and the final amended budget was an \$2.0 million increase, or five percent due to a late state approved budget increase.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant favorable variance of \$2.7 million in instruction was a result of budgeting to the maximum general budget limit to provide capacity in future years.

#### **Capital Assets and Debt Administration**

**Capital Assets**. At year end, the District had invested \$133.9 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$3.5 million from the prior fiscal year, primarily due to continued building improvement projects. Total depreciation expense for the current fiscal year was \$3.7 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2023 and June 30, 2022.

|                                   | As of         |            | As of |             |
|-----------------------------------|---------------|------------|-------|-------------|
|                                   | June 30, 2023 |            | Jun   | ne 30, 2022 |
| Capital assets - non-depreciable  | \$            | 5,693,869  | \$    | 4,986,421   |
| Capital assets - depreciable, net |               | 71,946,387 |       | 72,680,803  |
| Total                             | \$            | 77,640,256 | \$    | 77,667,224  |

The estimated cost to complete current construction projects is \$13.1 million.

Additional information on the District's capital assets can be found in Note 7.

**Debt Administration.** At year end, the District had \$46.6 million in long-term debt outstanding, \$5.2 million due within one year. Long-term debt increased by \$12.1 million due to the issuance in school improvement bonds.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 30 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 20 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$173.3 million and the Class B debt limit is \$101.2 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 8 through 11.

#### **Economic Factors and Next Year's Budget and Rates**

Many factors were considered by the District's administration during the process of developing the fiscal year 2023-24 budget. Among them:

- Fiscal year 2022-23 budget balance carry forward (estimated \$1.3 million).
- District student population (estimated 4,912).

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased three percent to \$40.1 million in fiscal year 2023-24. Increased payroll and employee benefit costs is the primary reason for the increase. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2023-24 budget.

#### **Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Catalina Foothills Unified School District No. 16, 2101 East River Road, Tucson, Arizona 85718-6597.

## Catalina Foothills Unified School District No. 16 Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2023

| Changes in fund balances - total governmental funds  |                             | \$<br>18,389,304 |
|--|-----------------------------|------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:   |                             |                  |
| Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation/amortization expense.                                |                             |                  |
| Expenditures for capitalized assets Less current year depreciation/amortization  | \$ 3,654,847<br>(3,676,663) | (21,816)         |
| Issuance of long-term debt provides current financial resources to governmental funds, but the issuance increases long-term liabilities in the Statement of Net Position.  |                             | (21,610)         |
| Issuance of school improvement bonds Financed purchase agreements  | (15,200,507)<br>(2,869,437) | (18.060.044)     |
| Some revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.  |                             | (18,069,944)     |
| Property taxes Intergovernmental   | 20,189<br>257,297           | 277,486          |
| Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.   |                             | 277,400          |
| Financed purchase principal retirement   | 9,869                       |                  |
| Lease principal retirement   | 167,985                     |                  |
| Bond principal retirement  | 2,855,000                   | 2 022 054        |
| Governmental funds report pension contributions as expenditures. However, they are reported as deferred outflows of resources in the Statement of Net Position. The change in the net pension liability, adjusted for deferred items, is reported as pension expense in the Statement of Activities. |                             | 3,032,854        |
| Current year pension contributions   | 3,450,772                   |                  |
| Pension expense  | (3,269,050)                 |                  |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  |                             | 181,722          |
| Loss on disposal of assets   | (5,152)                     |                  |
| Amortization of deferred bond items  | 203,686                     |                  |
| Compensated absences   | (40,974)                    | 457.500          |
|  |                             | <br>157,560      |
| Changes in net position in governmental activities   |                             | \$<br>3,947,166  |

#### Note 1 – Summary of Significant Accounting Policies

The financial statements of the Catalina Foothills Unified School District No. 16 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2023, the District implemented the provisions of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*. This Statement increases the usefulness of the financial statements by requiring the recognition of certain assets and liabilities for SBITAs. This Statement also requires a government to disclose essential information about the arrangement. The District's analysis of SBITAs in effect at the beginning of the year resulted in no changes to beginning balances reported in the financial statements due to the implementation of this standard.

In addition, during the year the District consolidated individual reporting funds that were presented separately in the prior year financial statements. The consolidated funds include the Federal and State Grants Fund, Other Special Revenue Fund, and Other Capital Projects Fund.

The more significant of the District's accounting policies are described below.

#### A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the financial activity of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, and athletic functions.

#### Note 1 – Summary of Significant Accounting Policies

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities or fiduciary activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The District does not allocate indirect expenses to programs of functions. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted state aid, and other items not included among program revenues are reported instead as general revenues.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Government-Wide Financial Statements</u> — The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects in interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Issuances of long-term debt and acquisitions under lease contracts and subscription-based information technology arrangements are reported as other financing sources.

#### Note 1 – Summary of Significant Accounting Policies

Property taxes, state aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The District reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund and the Unrestricted Capital Outlay Fund as well as the certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

<u>Federal and State Grants</u> – The Federal and State Grants Fund accounts for financial assistance received for federal and state grants and projects.

<u>Bond Building</u> – The Bond Building Fund accounts for proceeds from District bond issues that are expended on the acquisition or lease of sites; construction or renovation of school buildings; supplying school buildings with furniture, equipment, and technology; improving school grounds; or purchasing pupil transportation vehicles.

#### D. Cash and Investments

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

#### Note 1 – Summary of Significant Accounting Policies

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable federal depository insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

#### E. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements.

#### F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

#### Note 1 – Summary of Significant Accounting Policies

#### **G.** Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August, that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however, according to case law, an enforceable legal claim to the asset does not arise.

#### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

#### I. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; construction in progress; and intangible right-to-use assets, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the estimated useful life of the asset. Intangible right-to use assets are amortized over the shorter of the lease term or the underlying asset's useful life. The estimated useful lives and amortization periods are as follows:

| Land improvements                 | 5 – 20 years |
|-----------------------------------|--------------|
| Buildings and improvements        | 5 – 70 years |
| Vehicles, furniture and equipment | 5 – 30 years |
| Intangible right-to use assets    | 2 – 4 years  |

#### Note 1 – Summary of Significant Accounting Policies

#### J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

#### K. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

#### L. Leases

As lessor, the District recognizes lease receivables with an initial, individual value of \$5,000 or more. If there is no stated rate in the lease contract (or if the stated rate is not the rate the District charges the lessee) and the implicit rate cannot be determined, the District uses its own estimated incremental borrowing rate as the discount rate to measure lease receivables. The District's estimated incremental borrowing rate is calculated based on the applicable federal rate.

As lessee, the District recognizes lease liabilities with an initial, individual value of \$5,000 or more. The District uses its estimated incremental borrowing rate to measure lease liabilities unless it can readily determine the interest rate implicit in the lease. The District's estimated incremental borrowing rate is based on the applicable federal rate.

#### M. Pensions

For purposes of measuring the net pension liability, related deferred outflows of resources and deferred inflows of resources, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Note 1 – Summary of Significant Accounting Policies

#### N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### O. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

#### P. Net Position Flow Assumption

In the government-wide financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

#### Q. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Note 2 – Fund Balance Classifications

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

**Nonspendable**. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact.

**Restricted**. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

**Committed**. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. No committed fund balance amounts are reported.

**Assigned**. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. No assigned fund balance amounts are reported.

**Unassigned**. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### Note 2 – Fund Balance Classifications

The table below provides detail of the major components of the District's fund balance classifications at year end.

|                            |                  |     |            |    |              | N  | lon-Major  |
|----------------------------|------------------|-----|------------|----|--------------|----|------------|
|                            |                  | Fe  | deral and  |    |              | Go | vernmental |
|                            | <br>General      | Sta | ite Grants | В  | ond Building |    | Funds      |
| Fund Balances:             |                  |     |            |    |              |    |            |
| Nonspendable:              |                  |     |            |    |              |    |            |
| Prepaid items              | \$               | \$  | 711,915    | \$ |              | \$ |            |
| Restricted:                |                  |     |            |    |              |    |            |
| Debt service               |                  |     |            |    |              |    | 1,464,858  |
| Capital projects           | 4,200,000        |     |            |    |              |    | 1,309      |
| Bond building projects     |                  |     |            |    | 13,650,363   |    |            |
| Voter approved initiatives |                  |     |            |    |              |    | 2,333,998  |
| Federal and state grants   |                  |     | 202,814    |    |              |    |            |
| Food service               |                  |     |            |    |              |    | 1,150,500  |
| Civic center               |                  |     |            |    |              |    | 221,194    |
| Community schools          |                  |     |            |    |              |    | 3,355,875  |
| Extracurricular activities |                  |     |            |    |              |    | 546,339    |
| Gifts and donations        |                  |     |            |    |              |    | 357,460    |
| Student activities         |                  |     |            |    |              |    | 233,812    |
| Other purposes             |                  |     |            |    |              |    | 200,055    |
| Unassigned                 | <br>18,291,483   |     |            |    |              |    | (67,397)   |
| Total fund balances        | \$<br>22,491,483 | \$  | 914,729    | \$ | 13,650,363   | \$ | 9,798,003  |

#### Note 3 – Stewardship, Compliance and Accountability

<u>Individual Deficit Fund Balance</u> - At year end, the Other Capital Projects Funds, a non-major governmental fund, had a deficit of \$67,397 in fund balance. The deficit arose because of operations during the year and because of pending grant reimbursements. Additional revenues received in fiscal year 2023-24 are expected to eliminate the deficit.

<u>Excess Expenditures Over Budget</u> – At year end, the District had expenditures in funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

#### Note 4 – Cash and Investments

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$2.4 million, and the bank balance was \$2.4 million. At year end, \$1.2 million of the District's deposits were covered by collateral held by the pledging financial institution's trust department or agent but not in the District's name.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The State Treasurer's pools are external investment pools, the Local Government Investment Pool (Pool 5) and Local Government Investment Pool-Government (Pool 7), with no regulatory oversight. The pools as an investment company are not registered with the Securities and Exchange Commission. The activity and performance of the pools are reviewed monthly by the State Board of Investment. The fair value of each participant's position in the State Treasurer investment pools approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

At year end, the District's investments consisted of the following:

|                                     | Average Maturities | Fair Value       |
|-------------------------------------|--------------------|------------------|
| County Treasurer's investment pool  | 305 days           | \$<br>28,442,722 |
| State Treasurer's investment pool 7 | 37 days            | <br>14,825,877   |
| Total                               |                    | \$<br>43,268,599 |

#### Note 4 – Cash and Investments

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The District has no investment policy that would further limit its investment choices. At year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency. The State Treasurer's Local Government Investment Pool 7 was rated AAA by Moody's at year end.

Custodial Credit Risk – Investments. The District's investment in the State and County Treasurer's investment pools represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

#### Note 5 – Receivables

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's individual major funds and non-major governmental funds in the aggregate, were as follows:

|                                       |                      |           |              |           | N  | lon-Major  |
|---------------------------------------|----------------------|-----------|--------------|-----------|----|------------|
|                                       |                      |           | Federal and  |           | Go | vernmental |
|                                       | General State Grants |           | State Grants |           |    | Funds      |
| Due from other governmental entities: |                      |           |              |           |    |            |
| Due from federal government           | \$                   |           | \$           | 1,739,651 | \$ |            |

#### Note 6 – Leases Receivable

The District leases land under the provisions of contracts classified as leases. The related receivables under the lease agreements have been recorded at the present value of their future minimum lease payments as of the inception date. Lease revenue of \$158,434 is recorded as other local revenue in the General Fund.

Future minimum lease payments to be received under the lease agreements at year end are summarized as follows:

| Year Ending Jui | ne 30: |                 |
|-----------------|--------|-----------------|
| 20              | )24    | \$<br>132,705   |

#### Note 7 – Capital Assets

Depreciation and amortization expense were charged to governmental functions as follows:

| Instruction  | \$<br>1,203,188 |
|--|-----------------|
| Support services – students and staff                | 6,061           |
| Support services – administration                    | 15,905          |
| Operation and maintenance of plant services          | 21,201          |
| Student transportation services                      | 297,121         |
| Operation of non-instructional services              | <br>2,133,187   |
| Total depreciation expense – governmental activities | \$<br>3,676,663 |

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to various capital projects for the construction of building improvements. At year end, the District had spent \$2.5 million on the projects and had estimated remaining contractual commitments of \$13.1. These projects are being funded with the General Fund, Bond Building Fund, and Other Capital Projects Funds, a non-major governmental fund.

#### Note 8 – Financed Purchases Payable

The District has acquired computers and a vehicle under the provisions of contracts classified as financed purchases payables. Revenues from the General Fund are used to pay the debt obligations.

Annual debt service requirements to maturity on financed purchases payable at year end are summarized as follows:

|                      | Governmental Activities |           |          |        |  |  |  |
|----------------------|-------------------------|-----------|----------|--------|--|--|--|
| Year ending June 30: |                         | Principal | Interest |        |  |  |  |
| 2024                 | \$                      | 1,893,368 | \$       | 25,475 |  |  |  |
| 2025                 |                         | 485,691   |          | 44,070 |  |  |  |
| 2026                 |                         | 501,066   |          | 28,695 |  |  |  |
| Total                | \$                      | 2,880,125 | \$       | 98,240 |  |  |  |

#### Note 9 – Leases Payable

The District has acquired copiers and a postage meter under the provisions of contracts classified as leases. The related obligations under the lease agreements have been recorded at the present value of their future minimum lease payments as of the inception date. Revenues from the General Fund are used to pay the lease obligations. Amortization of right-to-use assets recorded under leases is included with depreciation expense.

The net present value and future minimum lease payments at year end were as follows:

|                      | Governmental Activities |          |          |    |  |  |  |  |
|----------------------|-------------------------|----------|----------|----|--|--|--|--|
| Year ending June 30: |                         | rincipal | Interest |    |  |  |  |  |
| 2024                 | \$                      | 17,033   | \$       | 29 |  |  |  |  |
| 2025                 |                         | 1,626    |          | 3  |  |  |  |  |
| Total                | \$                      | 18,659   | \$       | 32 |  |  |  |  |

The right-to-use assets recorded under leases that meet the District's capitalization threshold are as follows:

|                                   | Gov | vernmental |
|-----------------------------------|-----|------------|
|                                   | A   | ctivities  |
| Asset:                            |     |            |
| Vehicles, furniture and equipment | \$  | 353,211    |
| Less: Accumulated amortization    |     | 349,446    |
| Total                             | \$  | 3,765      |

#### Note 10 – General Obligation Bonds Payable

Bonds payable at year end consisted of the following outstanding general obligation bonds. Of the total amount originally authorized, \$23.5 million remains unissued. The bonds are both callable and noncallable with interest payable semiannually. Property taxes from the Debt Service Fund, a non-major governmental fund, are used to pay bonded debt. The District's legal debt limit is \$216.4 million and the available margin is \$173.3 million.

|                              | Original        |            | Outstanding |    |             |    |            |

#### Note 12 – Interfund Receivables, Payables, and Transfers

At year end, interfund balances were as follows:

**Due to/from other funds** — At year end, the Other Capital Projects Funds, a non-major governmental fund had negative cash balances of \$154,882 in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with the General Fund. All interfund balances are expected to be paid within one year.

Interfund transfers – Transfers between funds were used to (1) move investment income earned of \$171,918 in the Bond Building Fund that is required by statute to be expended in the Debt Service Fund, a non-major governmental fund, and (2) to move federal grant funds of \$49,668 restricted for indirect costs.

#### Note 13 - Contingent Liabilities

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

<u>Lawsuits</u> – The District is a party to a number of various types of lawsuits, many of which normally occur in governmental operations. The ultimate outcome of the actions is not determinable; however, District management believes that the outcome of these proceedings, either individually or in the aggregate, will not have a materially adverse effect on the accompanying financial statements.

#### Note 13 – Contingent Liabilities

<u>Arbitrage</u> – Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense or expenditure prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

#### Note 14 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District's employees have health, accident, and vision insurance coverage with the Arizona School Board Association Insurance Trust (ASBAIT). ASBAIT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to ASBAIT for employees' health and accident insurance coverage. The agreement provides that ASBAIT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District continues to carry commercial insurance for employee dental coverage. Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### Note 15 – Pensions

**Plan Description.** District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

The ASRS OPEB plans are not further disclosed because of their relative insignificance to the District's financial statements.

**Benefits Provided.** The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

### Retirement Initial Membership Date:

|                                     | Before July 1, 2011            | On or After July 1, 2011  |
|-------------------------------------|--------------------------------|---------------------------|
| Years of service and age            | Sum of years and age equals 80 | 30 years, age 55          |
| required to receive                 | 10 years, age 62               | 25 years, age 60          |
| benefit                             | 5 years, age 50*               | 10 years, age 62          |
|                                     | Any years, age 65              | 5 years, age 50*          |
|                                     |                                | Any years, age 65         |
| Final average salary is             | Highest 36 months of last      | Highest 60 months of last |
| based on                            | 120 months                     | 120 months                |
| Benefit percent per year of service | 2.1% to 2.3%                   | 2.1% to 2.3%              |
|                                     |                                |                           |

<sup>\*</sup>With actuarially reduced benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

#### Note 15 – Pensions

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.17 percent (12.03 percent for retirement and 0.14 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 12.17 percent (11.92 percent for retirement, 0.11 percent for health insurance premium benefit, and 0.14 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2023 were \$3.5 million.

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work in positions that would typically be filled by an employee who contributes to ASRS. The District was required by statute to contribute at the actuarially determined rate of 9.68 percent (9.62 for retirement and 0.06 percent for long-term disability). ACR contributions are included in employer contributions presented above.

The District's pension plan contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund.

**Pension Liability.** The net pension liability was measured as of June 30, 2022. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2021, to the measurement date of June 30, 2022. The District's proportion of the net liability was based on the District's actual contributions to the applicable plan relative to the total of all participating employers' contributions to the plan for the year ended June 30, 2022.

At June 30, 2023, the District reported the following amounts for its proportionate share of the pension plan net liability. In addition, at June 30, 2022, the District's percentage proportion for the plan and the related change from its proportion measured as of June 30, 2021 was:

| Net              | District     | Increase   |  |  |  |
|------------------|--------------|------------|--|--|--|
| <br>Liability    | % Proportion | (Decrease) |  |  |  |
| \$<br>37,025,326 | 0.227        | (0.008)    |  |  |  |

**Pension Expense and Deferred Outflows/Inflows of Resources.** The District has deferred outflows and inflows of resources related to the net pension liability. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. The District's pension expense for the year ended June 30, 2023 was \$3.3 million.

#### Note 15 – Pensions

The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred    |           |           | Deferred   |  |
|--|-------------|-----------|-----------|------------|--|
|  | Outflows of |           |           | Inflows of |  |
|  | R           | esources  | Resources |            |  |
| Differences between expected and actual experience   | \$          | 315,478   | \$        |            |  |
| Changes of assumptions or other inputs   |             | 1,837,639 |           |            |  |
| Net difference between projected and actual earnings on pension investments                          |             |           |           | 975,283    |  |
| Changes in proportion and differences between contributions and proportionate share of contributions |             |           |           | 1,016,337  |  |
| Contributions subsequent to the measurement date   |             | 3,450,772 |           |            |  |
| Total  | \$          | 5,603,889 | \$        | 1,991,620  |  |

The amounts of deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an adjustment of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending June 30: |                 |
|----------------------|-----------------|
| 2024                 | \$<br>1,098,000 |
| 2025                 | (804,169)       |
| 2026                 | (1,693,320)     |
| 2027                 | 1,560,986       |

**Actuarial Assumptions.** The significant actuarial assumptions used to measure the total pension liability are as follows:

| Actuarial valuation date    | June 30, 2021       |
|-----------------------------|---------------------|
| Actuarial roll forward date | June 30, 2022       |
| Actuarial cost method       | Entry age normal    |
| Investment rate of return   | 7.0%                |
| Inflation                   | 2.3%                |
| Projected salary increases  | 2.9-8.4%            |
| Permanent base increases    | Included            |
| Mortality rates             | 2017 SRA Scale U-MP |

#### Note 15 – Pensions

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation.

The long-term expected rate of return on ASRS plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, excluding any expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

|                               |            | Long-Term      |  |  |
|-------------------------------|------------|----------------|--|--|
|                               |            | Expected       |  |  |
|                               | Target     | Geometric Real |  |  |
| Asset Class                   | Allocation | Rate of Return |  |  |
| Equity                        | 50%        | 3.90%          |  |  |
| Credit                        | 20         | 5.30           |  |  |
| Interest rate sensitive bonds | 10         | (0.20)         |  |  |
| Real estate                   | 20         | 6.00           |  |  |
| Total                         | 100%       |                |  |  |

**Discount Rate.** The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Note 15 – Pensions

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

|               |    | Current     |    |               |    |             |  |
|---------------|----|-------------|----|---------------|----|-------------|--|
|               | 1  | 1% Decrease |    | Discount Rate |    | 1% Increase |  |
| Rate          |    | 6.0%        |    | 7.0%          |    | 8.0%        |  |
| Net liability | \$ | 54,629,768  | \$ | 37,025,326    | \$ | 22,345,972  |  |

**Pension Plan Fiduciary Net Position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

#### Catalina Foothills Unified School District No. 16 Notes to Required Supplementary Information June 30, 2023

#### Note 1 - Budgetary Basis of Accounting

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.
- Employee insurance expenditures are budgeted in the year the employee insurance account is funded.

The following schedule reconciles expenditures and fund balances at the end of year:

|   |    | Tatal     |          | Fui   |            |
|---|----|-----------|----------|-------|------------|
|   |    | Total     |          | Balar |            |
|   | Ex | penditure | s E      | nd of | Year       |
| Statement of Revenues, Expenditures and Changes in          |    |           |          |       |            |
| Fund Balances - Governmental Funds                          | \$ | 44,913,2  | 72 \$    | 22,4  | 191,483    |
| Activity budgeted as special revenue funds                  |    | (1,415,3  | 02)      | (8    | 369,604)   |
| Activity budgeted as capital projects funds                 |    | (7,037,4  | 23)      | (11,7 | 750,198)   |

#### Note 2 – Pension Plan Schedules

**Actuarial Assumptions for Valuations Performed.** The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

**Factors that Affect Trends.** The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation.

Combining and Individual Fund Financial Statements and Schedules

(This page intentionally left blank)

**Governmental Funds** 

(This page intentionally left blank)

#### **Non-Major Governmental Funds**

#### **Special Revenue Funds**

<u>Classroom Site</u> – to account for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

**Instructional Improvement** – to account for the activity of monies received from gaming revenue.

<u>Food Service</u> – to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

<u>Other Special Revenue Funds</u> — to account for the revenues and expenditures of other special revenue activities, including the following: civic center, community school, extracurricular activities fees tax credit, and student activities.

#### **Debt Service Fund**

<u>Debt Service</u> – to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

#### **Capital Projects Funds**

#### **Statistical Section**

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

#### **Financial Trends**

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

#### **Debt Capacity**

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

#### **Operating Information**

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

**Note:** For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to 5 percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

Source: The source of this information is the State and County Abstract of the Assessment Roll, Arizona Department of Revenue.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. Primary taxes are used for general District operations. Secondary taxes are used to service District bonded debt requirements and other voter-approved overrides.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. The net full cash assessed value is used for determining the District's bonding capacity and as the ceiling for net limited assessed value.

**Source:** The source of this information is the Pima County Treasurer's records.

Notes: 1) Amounts collected are on a cash basis.

2) Unsecured personal property taxes are not included in this schedule because the dates of the monthly rolls vary each year. On the average, 90% of unsecured property taxes are collected within 90 days after the due date.

**Source:** The source of this information is the District's financial records.

**Note:** The provisions of the Governmental Accounting Standards Board (GASB) Statement No. 87 were adopted in fiscal year 2022. The standard replaces the previous capital and operating lease designations with financed purchases or leases depending on the substance of the transactions. The fiscal year 2014-2021 information within this column relates to the transactions previously designated as capital leases.

| As a Percentage of Net Limited Assessed Valuation As a Percentage of Gross Full Cash Value  | · | 9.73 %<br>0.96 % |

**Source:** The source of this information is the District's records and the State and County Abstract of the Assessment Roll, Arizona Department of Revenue and the applicable governmental unit.

**Notes:** 1) Estimated percentage of debt outstanding applicable to the District is calculated based on a portion of the District's net limited assessed valuation as a percentage of the net limited assessed valuation of the overlapping jurisdiction.

2) Outstanding debt as of June 30, 2022 is presented for the overlapping governments as this is the most recent available information.

**Source:** The source of this information is the District's financial records.

Notes: 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding. The calculations of the debt margins are presented in detail for the current fiscal year only.

2) Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.
