

SPECIAL SERVICES OPEN ENROLLMENT FACT SHEET

2021-2024

Catalina Foothills School District accepts open enrollment applications for the Special Education Speech Therapy program throughout the school year as capacity allows [A.R.S. 15-816.01(E)]. The capacity information is updated every 12 weeks unless there are no changes to report (Board Policy JFB: OPEN ENROLLMENT).

The Special Services Director reviews each applicant's individualized education plan, multidisciplinary report, and any psycho-educational evaluations to determine capacity for the program. In this context, capacity refers to the unique services the student requires to meet their learning needs.

Preference is given to students enrolled in the school the previous year and their sibling, children of employees of the District, resident transfer students and their siblings, and students who meet additional criteria established by the governing board.

After capacity is met, students are placed on a waiting list and selected through a lottery as capacity becomes available.

SPEECH THERAPY

| Open Enrollment by School Year | 2021 | 2022 | 2023 | 2024 |
|--------------------------------|------|------|------|------|
